ACE

A great little Boat

Compact and stable, it is the ideal electric rental boat.

1^{er} model in the Ruban Bleu range, the Ace has become a benchmark on leisure bases. Very stable, it allows family sailing in the greatest comfort.

AN ELECTRIC BOAT THAT HAS SHOWN ITS CAPABILITIES

The Ace has generous proportions. Its great width gives it excellent stability and exceptional living space for its size. 5 people can sit aboard in complete safety.

The result of discussions and work in the field with charter companies, the Ace model is as appealing for its aesthetic appeal and comfort as it is for its ease of use for families.

The driver sits at the rear of the boat, on a spacious bench that can accommodate two or three people, depending on the layout chosen by the crew.

A spacious locker is located under the steering console, providing storage for safety equipment. A passageway between the bench seat and the console makes it easy to move around the boat.

Naturally, the Ace is self-draining (*when stationary*).

TECHNICAL SPECIFICATIONS

Length: 3.85 m

Beam: 1.90 m

Weight: 131 Kg + 118 Kg of batteries
