AN ELECTRIC BOAT THAT PUSHES THE LIMITS

The Ace 2 offers generous proportions and unrivalled stability thanks to its new design. It retains the features that made its predecessor such a success, while introducing significant improvements for an even better experience.

New deck layout: for a smoother, more comfortable ride.

Improved manoeuvrability: thanks to slight modifications to the hull, you can enjoy even more precise and enjoyable sailing.

Easier access to electronics and engines: the charger and drive are now even easier to access, making maintenance and use even more convenient.

Superior sealing: enhanced protection against the elements.

Less risk on board: designed with safety in mind, the Ace 2 offers an even safer sailing environment.

The Ace 2 is naturally self-bailing (*when stationary*).
