

THE LEGEND

Accessibility for All

A spacious and stable electric boat, designed for boaters with reduced mobility.

The Legend is designed to take 9 passengers including a passenger with reduced mobility where appropriate. The skipper has 360 degree visibility making helping the boat a pleasure.

LEGEND

Practical and accessible, designed to be inclusive

Inclusivity is key to your boat rental business

Welcome to the Legend - the most spacious boat in the Ruban Bleu range.

It offers an essential element to any boat rental business by making the boat accessible to people with reduced mobility. The Legend is also the ideal solution to for all our clients' needs : adjustable motor, safe access to water, conviviality on board (cool box, table, sunbathing area).

Table

Swimming ladder

SECURITY

The Legend offers extra freeboard to keep children safe. The addition of a decorative folding aluminium transom at the stern is designed to protect the bather from the propeller while also offering support for the bathing ladder and direct access for a wheelchair user.

HELM

The transom opens up completely to enable easy boarding for a person with reduced mobility, enabling wheelchair access (great for pushchairs too !).

The helm seat is removable and there is a space beneath the console to enable a wheelchair user to position their feet comfortably while steering the boat in complete confidence.
