

TRACKLOISIRS

Connected management of your electric fleet

Boxes compatible with Torqeedo & Eco One motors

MANAGE YOUR RENTAL BUSINESS

Thanks to our partnership with TrackLoisirs, you can manage your Ruban Bleu fleet remotely, securely and easily.

Track your boats in **real time**, wherever you are.

KEY FEATURES

- ✓ **Real-time geolocation**
Monitor your boats remotely and receive alerts if they leave the zone.
- ✓ **Remote engine clamping**
Adjust the power (in watts or as a percentage) according to the conditions to ensure safe navigation and optimum range.
- ✓ **Live reading of engine data**
Consult the boat's speed, fuel consumption and status from the platform.
- ✓ **Checking departures and returns**
View rental departures and returns in real time, automatically detected by GPS.
- ✓ **Advanced management statistics**
View sales per boat, rental history, usage times, etc.
- ✓ **Simplified maintenance**
Digital logbook, error history, automated maintenance reminders.
- ✓ **Customised alerts**
Be informed in the event of an incident, end of rental or zone overrun.
